

2009 SOIL , WATER, & NUTRIENT MANAGEMENT MEETINGS

The Department of Soil Science will offer Soil, Water, and Nutrient Management Meetings at eight locations in 2009. These meetings combine the former Soil & Water Management and Fertilizer Dealer Meetings into one 4-hour session (10 am to Noon/1 to 3 pm). Matt Ruark, Dick Wolkowski, Carrie Laboski, Fred Madison, Dennis Frame, Paul Kivlin, and Sue Porter will present current soil & water management and soil fertility information. All speakers may not be present at all meetings. A \$35.00 registration fee (which includes lunch @ Noon) will be charged for the meeting. Certified Crop Adviser CEU credits (2 hours in soil and water management and 2 hours in nutrient management) have been requested. Make reservations with the host agent at least 1 week before the meeting you wish to attend.

Discussion Topics

- Reducing the risk of nutrient loss in surface water runoff: Frozen & snow-covered soils (Paul Kivlin)
- Reducing the risk of nutrient loss in surface water runoff: Non-frozen soils (Dennis Frame)
- Soil mapping in karst (Fred Madison)
- Wisconsin nutrient management update (Sue Porter)
- What you need to know about gypsum (Dick Wolkowski)
- Nitrogen application on legumes and legume N credits (Matt Ruark)
- The “Big Laboski Hour” (Carrie Laboski)
 - ▶ Nitrogen availability from treated manure
 - ▶ A first look at Instinct®
 - ▶ Tips for managing nutrients to survive the economic crisis
